

AIR DUCT CLEANING

*Helping to educate
consumers and locate
duct cleaning experts*

AIR DUCT CLEANING SCAMS ARE EVERYWHERE

In this industry, it's very easy for a company to mislead and fool an informed consumer. Traps like low pricing, "bait and switch" prices or most common the "blow and go" cleaners. It's not that simple to find a pro!

DON'T BE IN A RUSH...

Receiving a duct cleaning service from a reputable company requires patience. Most professional companies are booked weeks or months in advance depending on the season.

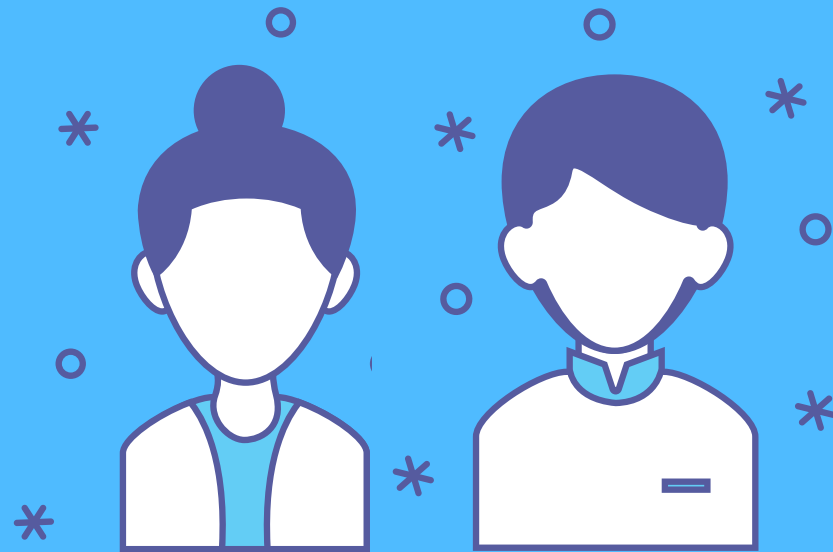

...DUCT CLEANING REQUIRES A LOT OF TIME

Don't be fooled into believing your air ducts can be cleaned in less than 2 hours. These types of companies are considered quick cleaners or "blow and go" providers.

CERTIFIED TECHNICIANS

ASCS (Air System Cleaning Specialist) from NADCA are certified technicians that have been trained to properly evaluate and clean air duct systems. Hiring an ASCS is a good idea, however, a non-certified honest technician could still offer a good service.

HOW TO HIRE A RESPONSIBLE DUCT CLEANER

Avoid hiring a duct cleaner from a free social platform. Nearly all scams/blow and go's for duct cleaning were located from a posting on Facebook Community Groups.
